January 30th, 2014 Update on Presidential Search

Greetings from the Presidential Search Committee,

The Presidential Search Committee met in Berkeley January 20-21, and carefully reviewed each and every of the twenty applications we had received. From these, we narrowed from those eight we wished to meet in person for a more extensive interview, and we have scheduled these for three days at the Dallas Fort Worth Airport in late February. It will be from this number that we will narrow to those candidates we wish to present to the Board for a campus visit in March. Our January meeting was also spent in a far-ranging discussion of those issues and questions we wished to raise in the February interviews. The entire Committee was present, and we continue to delight in working together.

Thank you for your ongoing support,

Starr King Presidential Search Committee
